Experience beautiful moments **WITH WATER**

The meaning of home

We realise the importance of home providing a place of relaxation and retreat. As a company, we know we are providing something truly fundamental to our customers: a home filled with beauty and quality, a place of escape from the outside world.

Innovations to make you feel good

This year, we're introducing a range of exciting new products that deliver on our guiding principles: innovation, design, quality and responsibility. We are able to offer solutions to your every need, by developing cutting-edge products that suit your lifestyle.

Designed with you in mind

hansgrohe is a brand for life. Whether you are looking for a moment of calm or refreshment, every product we make is designed to make your life easier. Designed by the award-winning Phoenix Design, our products are not one-off ideas but comprehensive solutions, designed to become integral to your everyday life. It's this that defines our brand: our focus on you.

Our name is your guarantee

Always creating the highest quality products defines our approach to modern design, manufacturing and performance. 'Made by Hansgrohe' is your assurance of quality, backed by our five-year guarantee for repair, replacement or refund if ever any of our products fail to fulfil those high expectations that attracted you to the Hansgrohe name.

5 YEAR
PRODUCT
GUARANTEE

All products carry a minimum 5 year manufacturing guarantee inc. parts and labour.

15 YEAR
PARTS AVAILABILITY
GUARANTEE

Spare parts held for 15 years after product discontinuation.

54 **Finishing Touches**
Create visual harmony with a selection of bathroom accessories

58 **Technology**
We don't just keep up with technology - we pioneer it. Our innovative technologies are all about performance.

CONTENTS

Your bathroom is an important room in your home; it is the room where you prepare for the day ahead and relax before bed. So whether you're adding an ensuite, updating your cloakroom or planning a complete refurbishment, we have everything you need to create your desired retreat.

Sit back, have a browse and enjoy seeing your bathroom start to become a reality.

Innovation

Innovative technologies that revolutionise your bathroom experience

hansgrohe has always been one of the pioneers and innovation leaders in the sanitary industry. We continually push the boundaries and revolutionise what is possible. We don't just optimise designs and materials, but also constantly rethink how they work to suit the needs of our customers. Relaxing jet types like PowderRain or groundbreaking installation solutions like the iBox Universal 2 are good examples of this. We invite people to come along to enjoy the beauty of water with our inventions.

Design

Meticulously designed with you in mind

From the lovingly designed detail to the holistic view of a complete Bathroom: For us, modern design embodies more than just one appealing aesthetic. The hansgrohe design unites all product lines timeless beauty, functional sophistication and the highest level of craftsmanship. Numerous awards confirm our striving for the extraordinary and underline our close collaboration with the PHOENIX design studio. We also adhere to our ECO design principles in every product development. So that a product looks attractive and is environmentally friendly.

Quality

Bright, shiny and robust coloured finishes

More colour in the bathroom: Each of the surface finishes are the result of an intense product development and a synergy of high-tech and handmade, as the brushed effect is created manually. This gives each product a unique texture based on its design. The result? Vibrant taps, shower heads and accessories made to the strictest quality standards that fulfil the desire for uniqueness in the bathroom teamed with a robust resistance to external factors.

All matt white and matt black products have been finished with two coats of lacquer for increased durability. Brushed black chrome, brushed bronze and polished gold optic are plated in a PVD (physical vapor deposition) chamber where the molecules are chemically bound onto the product surface creating an incredibly hard-wearing surface. Leaving it with a vibrant colour and long-lasting finish.

Express your individuality with a choice of six finishes

Chrome (-000)

Brushed Bronze (-140)

Brushed Black Chrome (-340)

Matt Black (-670)

Matt White (-700)

Polished Gold Optic (-990)

Green. Greener. ECO 2030.

“By 2030, we aim to convert our entire water-bearing product range in the hansgrohe and AXOR brands to water and energy-saving technologies. In the future, they will need to be part of every energy-efficient refurbishment and new build. We are committed wherever there is a need to tighten emissions-relevant screws in the bathroom and kitchen sector.”

Hans Jürgen Kalmbach
Chairman of the Executive Board of Hansgrohe SE

*The Hansgrohe Group defines “ECO” as the reduction of water and/or energy consumption of water-bearing products in use by at least 22 percent compared to the base year 2020.

Water-saving technologies and efficient spray modes.

9 out of 10 consumers agree that PowderRain offers a great showering experience - **with 40% water savings.***

*TRND customer study with 150 testers, July 2022. Water savings compared to Hansgrohe average.

PowderRain

Micro-fine droplets that gently and quietly envelop the body. Very fine openings on the shower head transform the water into a delicate cocoon. For sensual showering and deep relaxation.

EcoSmart

Showers with EcoSmart technology use up to 40% less water than conventional hansgrohe showers without EcoSmart. With an EcoSmart+ shower it saves up to 60%. That means: Many overhead and hand showers with EcoSmart only consume 8 l/min*, with EcoSmart+ only 6 l/min* or even less. This technology reduces water and energy costs daily and conserves valuable resources. For lasting sustainable showering pleasure.

*at 3 bar

During the life cycle of a hand shower approximately **1,000 times more CO₂** is emitted during usage than production. Which is why we recommend **EcoSmart technology**. It uses up to **40% less water** than conventional products. 

7 trees
could be watered for one year with your saving of 109,208 litres

*Calculations based on the Pulsify Select S 105 3jet Relaxation EcoSmart 8.2 l/min hand shower

CoolStart: warm water only flows when it's really needed

With CoolStart, only cold water flows when the handle is in the central position, so no energy is required to heat the water. Turn the handle for hot water only using it when needed.

CoolStart

A four-person household that uses a CoolStart tap for 20 minutes every day for a year consumes 508 kilowatt-hours less energy than it would with a standard tap.

 508 kWh <small>less consumption per year</small>	+	 50 lbs <small>less CO₂ per year</small>	=	 £109 <small>savings in water and energy costs each year</small>
Reduce energy consumption		Produce less CO₂		Save money

*Calculations based on the Rebris S Single lever basin mixer 110 CoolStart without waste set

Sustainable water control

hangrohe thermostats constantly compensate for fluctuations in temperature and pressure, for the best shower experience and no waste of water. Let the water flow or stop, switch from the hand shower to the overhead shower or change the spray mode: With many hangrohe thermostats, all this can be done at the touch of a button. Easy to handle and eco-friendly!

-  WaterFlowControl
-  EcoStop
-  SafetyStop

Your bathroom. Your shower. Your choice.

Here's how to choose the right hansgrohe products for the kind of space you want to create. After all, your shower should be as individual as you are. Simply select and identify the shower configuration you need to achieve the style and set-up you prefer together with the quality performance and control you demand.

Step 1

Where are you installing your shower?

Step 2

What type of valve needs installing?

Step 3

How many outlets do you require?

eg. overhead shower, hand shower or bath filler

Our valves explained

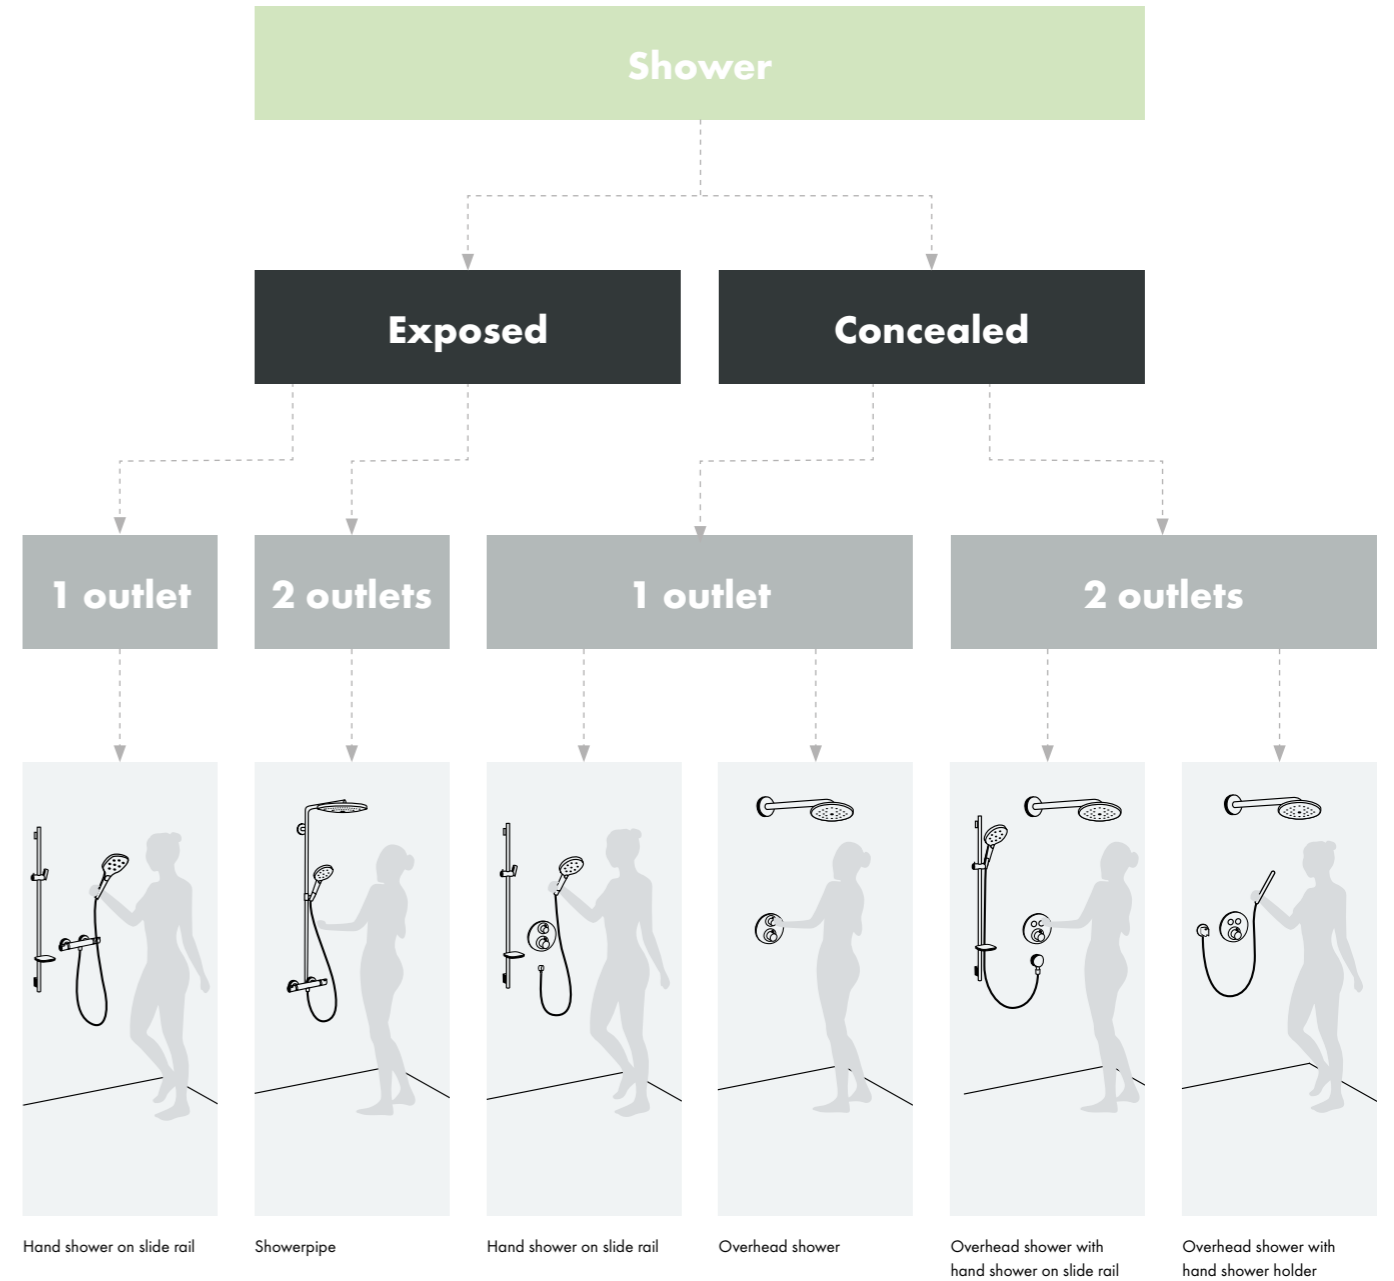

Exposed valve

Where solid brick walls don't allow a concealed valve or there is a desire to focus more on practicality and function, an exposed valve is often the preferred choice.

Concealed valve

Space-saving or sleekly minimalistic, a concealed valve hidden behind your tiling or wet wall fulfils the desire for a streamlined appearance by masking unattractive pipework or fittings.

IMAGINE A BATHROOM LIKE NEVER BEFORE.

Please visit your local stockist who will be able to create a bathroom solution specifically to suit your home and your needs.

LIFE IS WATERFUL

A truly beautiful experience with water

A Raindance shower offers a more expansive shower experience. Every model features a large spray disc, for a cocoon of water that surrounds you. We call this our XXL Performance. While the experience is always enveloping, there's a variety of different spray types for you to enjoy, so you can enjoy your perfect rain shower. It is even a breeze to clean, with flexible silicone nozzles that can just be rubbed to remove any limescale buildup.

The majority of hansgrohe showers come with an EcoSmart variant, so if you are conscious of the environment or if you just want to reduce water consumption to save money then we have the shower for you. By choosing an EcoSmart product you can reduce water consumption by up to 40%. Save Water. Save Money. Save the Planet.

Soft voluminous water droplets

Our award-winning Raindance Select hand shower features three different spray types including Rain, Whirl and RainAir. RainAir mixes air with water making the water droplets feel more weighty and voluminous whilst using the same amount of water.

Shower hoses that are good enough to drink from

Made from quality materials that are certified as safe for drinking water means that the water you are showering with is as unpolluted as it can be. The plastic coating makes for easy cleaning and the pivot connectors stop them from tangling. All of this in a choice of lengths and colours to suit your bathroom requirements.

Happiness at the touch of a button

The perfect shower control for the whole family. Whether you have young children or someone that finds it hard to twist wet shower controls. With this option, you can simply push the easily identifiable button for the shower type that you require to turn it on and off.

FEEL PULSIFIED

A unique shower experience for every bathroom size

No matter what size bathroom you have the XXL performance of the shower head means that it envelops you with water delivering the perfect shower to ensure you can start the day fresh in the morning and relaxed in the evening. It is even a breeze to clean, with flexible silicone nozzles that can just be rubbed to remove any limescale buildup.

The compact Pulsify system can be integrated into any bathroom, and you can choose from a variety of designs and surfaces to suit your style. With timeless aesthetics, the highest quality and intelligently integrated shelves, Pulsify will be a long-lasting source of pleasure – and it sets the standard in terms of sustainability too. By choosing a product variant with EcoSmart technology, you will use up to 40% less water than with standard products.

Superior showering, with a few little extras

We pride ourselves on making small changes that make a big difference. The Puro E shower rail twists so that you can point the shower in the direction that you need it. You can also adjust the height by simply sliding it up and down and fixing it securely in place with its locking mechanism.

Happiness at the touch of a button

ShowerSelect Comfort features a high quality design and allows for convenient water control. Simply turn the shower on and off by pressing on the paddle, you can even define the flow of water by turning the control.

Not only does this control look great with its flat, space-saving appearance, but it also has additional safety technologies that make it perfect for the whole family. The thermostatic elements mean that the casing will never be hot to touch and the safety stop prevents children from being able to turn the control above 40°C.

It's all about style – your style

Round or square? You decide! With Pulsify S and Pulsify E, you can individualise the look of your bathroom and enjoy a unique shower experience in its most beautiful form – both designs are fully adjustable and can be tilted to an angle that suits your needs, this also aids the fast drain function which allows water to drain out the back of the shower when it is off to prevent limescale buildup.

GREAT DESIGN. GREAT VALUE.

The all-rounder for the modern family bathroom

The thermostatic control avoids temperature changes to the water whilst in use, it is just as important to ensure that the valve is safe to touch at all times when it is being used by a variety of ages. Features such as CoolContact incorporated into many hansgrohe showers means that the exterior stays cool as the cold water inside the unit is directed straight to the surface.

Simply Select the spray type to suit your needs with a simple-to-use button

The unique hansgrohe Select button on your shower or mixer can be used to vary spray patterns with a simple touch. As the technology behind Select is purely mechanical, you can be confident of lasting reliability and ease of operation day in and day out.

There are a variety of spray patterns available to suit the shower requirements, both Massage and Whirl offer an invigorating spray, perfect for washing away the stress of the day and rinsing out shampoo. Or if you prefer a lighter shower with fine water droplets then PowderRain is the ideal solution.

Comfort and convenience right at your fingertips

The beautifully designed Ecostat shower control comes in two different design variants to suit your bathroom aesthetics. Whether you prefer a square or round design we have a control to match your bathroom requirements.

Simply switch between functionality, or adjust the temperature by turning the control. The added functionality of the safety stop will prevent anyone from going above 40°C, perfect for family bathrooms.

Big performance, great experience

No matter what size bathroom you have the XXL performance of the shower head means that it envelops you with water delivering the perfect shower to ensure you can start the day fresh in the morning and relaxed in the evening. It is even a breeze to clean, with flexible silicone nozzles that can just be rubbed to remove any limescale buildup.

ADDSTORIS

Everything is always beautiful and within reach

Do you love it when everything around you looks as if it came from a single source? Even all the different things you use in the bathroom every day? From toothbrushes and toothpaste to soaps and flannels, from perfumes and creams to razors and shaving foams. Where can all these essential products find a suitable storage spot that's also aesthetically satisfying?

AddStoris is the simplest answer. With an extensive range of accessories in six different surface colours, its flat minimalist design meets all those storage needs as well as matching your bathroom design to create a welcome oasis of wellbeing. From tissue boxes to shaving mirrors, AddStoris blends everything into your design in a beautifully unobtrusive and uncluttered fashion.

Holistic bathroom design with **stylish accessories** in six colours.

Technology

We don't just keep up with technology - we pioneer it.

Our innovative technologies are all about performance. To enhance the beauty of water and every aspect of your enjoyment. From the big picture to the smallest detail, we welcome every opportunity to enhance your showering experience by integrating technical innovation wherever and whenever it will function best. The icons are here to introduce you to the latest hansgrohe advances. They are your guide to discovering just how much hansgrohe can enhance your comfort and enjoyment in the bathroom.

Technologies

Use the Select button to switch between spray modes or shower heads.

Mixers and showers use up to 40% less water than conventional products.

Mixers and showers use up to 60% less water than conventional products.

When the handle is in the neutral position, cold water flows automatically.

Enriching water with air produces plump droplets for a velvety touch on the skin.

CoolContact prevents the thermostatic mixer from getting too hot and prevents painful scalding.

Remove limescale deposits quickly and easily with flexible silicone nozzles.

Evenly distributes the water over the large spray face to envelope the whole body.

With the adjustable shower head, the water jet can be adjusted individually.

Easy water control: with the control dial the water flow can be adjusted easily.

Constant water temperature with integrated control that monitors the water temperature and reacts to pressure changes.

Safety lock at over 40°C. A temperature limitation that ensures safe showering pleasure at all times.

With just one hand the shower holder can be freely adjusted in height.

The shower's quick emptying function reduces the dripping time after showering.

Spray modes

Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.

Invigorating and energy-saving showering indulgence with full shower rain designed to thoroughly rinse out shampoo.

Powerful, stimulating water sprays that wash away tiredness and leave people feeling fighting fit.

Invigorating shower rain that offers powerful refreshment. Just what is needed in the mornings or after exercise.

Full shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

Caressing water sprays that gently swirl around the body. An act of kindness for the skin, mind and soul.

Invigorating, concentrated spray for the home spa that allows the day's stresses to simply drain off.

Concentrated massage spray that helps to nicely wash away everyday tensions.

Full shower rain enriched with air that pampers day after day. Perfect for rinsing hair.
